

ProBitian Admin Control Center

Administrator Management Guide

ProBitian Admin Control Center 1½ User Guide

Official Administrative Management Guide for Authorized ProBitian Portal Administrators.

1. Introduction & Security Responsibilities

The ProBitian Admin Control Center is a secure, single-pane management dashboard designed for authorized administrators to manage site content, monitor GA4 analytics, track contact inquiries, review subscribers, and update branding assets.

Security Responsibilities

1½ Confidentiality: Never share the Admin Passkey or login URL.

1½ Key Isolation: API credentials, GA4 private keys, and service account tokens are stored server-side only.

1½ Session Hygiene: Always log out when completing administrative tasks.

2. Admin Authentication & Access Control

Accessing the Admin Portal

1½ URL: Append #/admin to the website address (e.g., <https://probitian.ai.studio/#/admin>).

1½ Passkey Screen: Enter the authorized Admin Passkey.

1½ Navigation Controls:

1½ "Back to Website": Instantly returns to the public site without ending session.

1½ "Logout": Clears admin session token and returns to login screen.

3. Admin Dashboard Overview

Upon authenticating, administrators are greeted with the Command Center overview:

1½ KPI Metrics Cards:

1½ Active Users Now (Real-Time GA4 data).

1½ Total Visitors Today, Last 7 Days, and Last 30 Days.

1½ Pending Contact Messages.

1½ Active Newsletter Subscribers.

1½ Quick Launchpad: One-click shortcuts to Add Blog, Manage Courses, Branding Settings, and GA4 Analytics.

4. CMS Content Management Workflow

ProBitian utilizes a unified CMS model for managing site content.

Content Lifecycle

1. Draft Mode: Content is stored in the system but hidden from public views.

2. Published Mode: Instantly visible across the live website.

3. Edit / Archive: Modify existing items or toggle visibility instantly.

5. Projects Management Module

1½ Add New Project: Enter Title, Category, Short Summary, Detailed Description, and Tools Used.

1½ Link Attachments: Add Live Demo URL, GitHub Repository, YouTube Tutorial link, and Dataset download link.

1½ Featured Toggle: Mark key projects to appear on the Home page hero grid.

6. Blog Management Module

1½ Article Editor: Configure Title, Slug, Excerpt, Full Content, Read Time, and Tags.

1½ Visual Assets: Attach Cover Image URL and optional YouTube Walkthrough URL.

½ Publishing Status: Toggle between Draft and Published.

7. Courses & Learn Management Module

½ Course Profile: Set Title, Subtitle, Category (Power BI, SQL, etc.), Level, and Duration.

½ Resource Links: Attach YouTube Video IDs, PDF Documentation links, and Dataset URLs.

8. Contact Messages & Inbox Management

½ Viewing Inquiries: Real-time table displaying sender Name, Email, Phone, Course Interest, and Timestamp.

½ Status Badges: Mark messages as Unread, Read, or Replied.

½ One-Click Email Reply: Click "Reply via Email" to open your native email client with pre-filled recipient address.

½ Admin Notes: Attach private internal notes to individual messages.

9. Newsletter Subscribers Module

½ Subscriber Roster: View full list of subscriber emails and signup timestamps.

½ Search & Export: Search subscribers by domain or date.

10. Website Branding Management

½ Custom SVG Upload: Upload custom Logo SVG and Banner SVG files.

½ Security Sanitization: Automated backend sanitizer strips inline scripts and dangerous XML constructs prior to storage.

½ Real-Time Live Preview: Inspect new logo and banner assets side-by-side before committing.

½ Reset to Default: One-click restoration of factory ProBitian branding assets.

11. Analytics Command Center (GA4 Integration)

Real-time integration with Google Analytics 4 Data API and Realtime API.

Tracked Analytics Metrics

½ Active Users Now: Live active sessions from GA4 Realtime API.

½ Historical Visitors: Breakdown by Today, 7 Days, and 30 Days.

½ Engagement Metrics: Page Views, Total Sessions, Engagement Rate (%), Average Engagement Time.

½ Deduplicated Top Pages Report: Aggregates duplicate dimension paths into unique page rows.

½ Traffic Sources & Geographic Demographics: Referrers, Devices, Browsers, and Visitor Countries.

½ Custom Event Conversion Cards:

½ youtube_click

½ instagram_click

½ facebook_click

½ github_click

½ course_click

½ project_click

½ blog_click

½ contact_click

½ contact_form_submit

12. General Settings & Navigation Management

½ General Settings: Edit Site Name, Tagline, Contact Email, and Footer Copyright.

½ Navigation Links: Toggle header and footer link visibility and custom display order.

½ Social Links: Manage external URLs for YouTube, Instagram, Facebook, and GitHub.

13. Light / Dark Theme Support

Switch between Light and Dark mode using the sun/moon icon in the Admin portal top header bar.

14. Admin Troubleshooting & FAQ

 Q: I uploaded a logo SVG but it looks cut off.

 A: Ensure your SVG uses a viewBox aspect ratio suitable for header display (e.g. 200x50px).

 Q: How do I refresh GA4 Analytics?

 A: Click the "Refresh Analytics" button in the Analytics Command Center header.

 Q: What happens when I click "Reset to Default" branding?

 A: The system immediately restores the default ProBitian logo and banner assets on both development and production servers.
